PERIOD COVERED: July 1, 1990 to June 30, 1991

Need

The Department acquired access to public water for public use. These sites have been developed, and these facilities need to be renovated and/or maintained. Public use requires developments on both newly-acquired and older sites.

Objectives

To provide safe and easy access to public waters for the sport fishing public, provide maintenance and renovation to existing sites, and develop newly-acquired sites.

Results and Benefits

As a result of the increased efforts on repair and maintenance, the access sites are cleaner and safer for public use. The users have benefited from additional facilities that were installed.

Approach

Operate and maintain 74 public fishing access sites in Region 3.

Location

1. Renovation and Improvements

During the last project year, fishing docks and toilets were purchased and stockpiled for installation during the next project period.

A boundary line fence was installed at the Dixie access site. This will make the area more visible to the general public.

The outlet structure at the Horseshoe Bend Mill Pond was replaced. The new structure replaced an old and deteriorated structure. The new facility should hold water for a longer period of time and help increase the overall depth.

Directional and site signs were installed by Department personnel at all access site locations. The Department of Transportation installed "Sportsmen Access" signs along federal and state highways.

Ten additional acres were acquired at the Star Lane Pond. The additional land protects the entire pond area and completes the acquisition project.

<u>Site</u>	<u>County</u>	<u>Improvement</u>	<u>Estimated Cost</u>
Horseshoe Bend Mill Pond	Boise	Reconstructed outlet	\$25,000
Wilson Springs	Canyon	Develop parking lot - not completed, fenced boundary line (other funding source)	
Dixie	Canyon	Fenced boundary	\$ 1,000
Star Lane	Gem	Acquired ten additional acres	\$ 8,000

FEDERAL AID IN FISH RESTORATION

ANNUAL REPORT **I**

TITLE: Fishing Access, Region 4

PROJECT NUMBER: F-76-D-6

PROJECT LEADER: Dale Turnipseed

ASSISTANT: Pat Cole

PROJECT PERIOD: July 1, 1990 - June 30, 1991

NEED: The Department has acquired by fee title or easement access to public waters. Some of the priorities have been developed to provide for boat launching, fishing, parking and camping. Restrooms have been installed at some areas. These public access areas require annual maintenance. Some of the access areas need to be renovated or improved. Some improvements are in need of replacement or repair.

OBJECTIVE: To provide for operation, maintenance, renovation or additional improved and safer, handicap approved access to public waters for boating and fishing recreation and for public use of sport fish.

RESULTS: Increased effort on maintenance, repair and renovation resulted in cleaner, safer, handicap approved access areas. Improved facilities will allow more people and boats access to the public waters for fishing or other recreational activities.

APPROACH: Operated and maintained 30 public access areas in Region 4.

1. Maintenance and Operation Activities:

Repairs and upkeep included cleaning toilets, repairing fences, controlling weeds or other unwanted vegetation in parking or camping areas, removal of refuse, pump out of toilet vaults, replace damaged or substandard facilities such as toilets, concrete boat ramp logs, signs, parking barriers, rebuild boat/fishing docks, paint facilities and other repairs deemed necessary. Monitor public use.
